Andragogy
Knowles'
Theory

Knowles

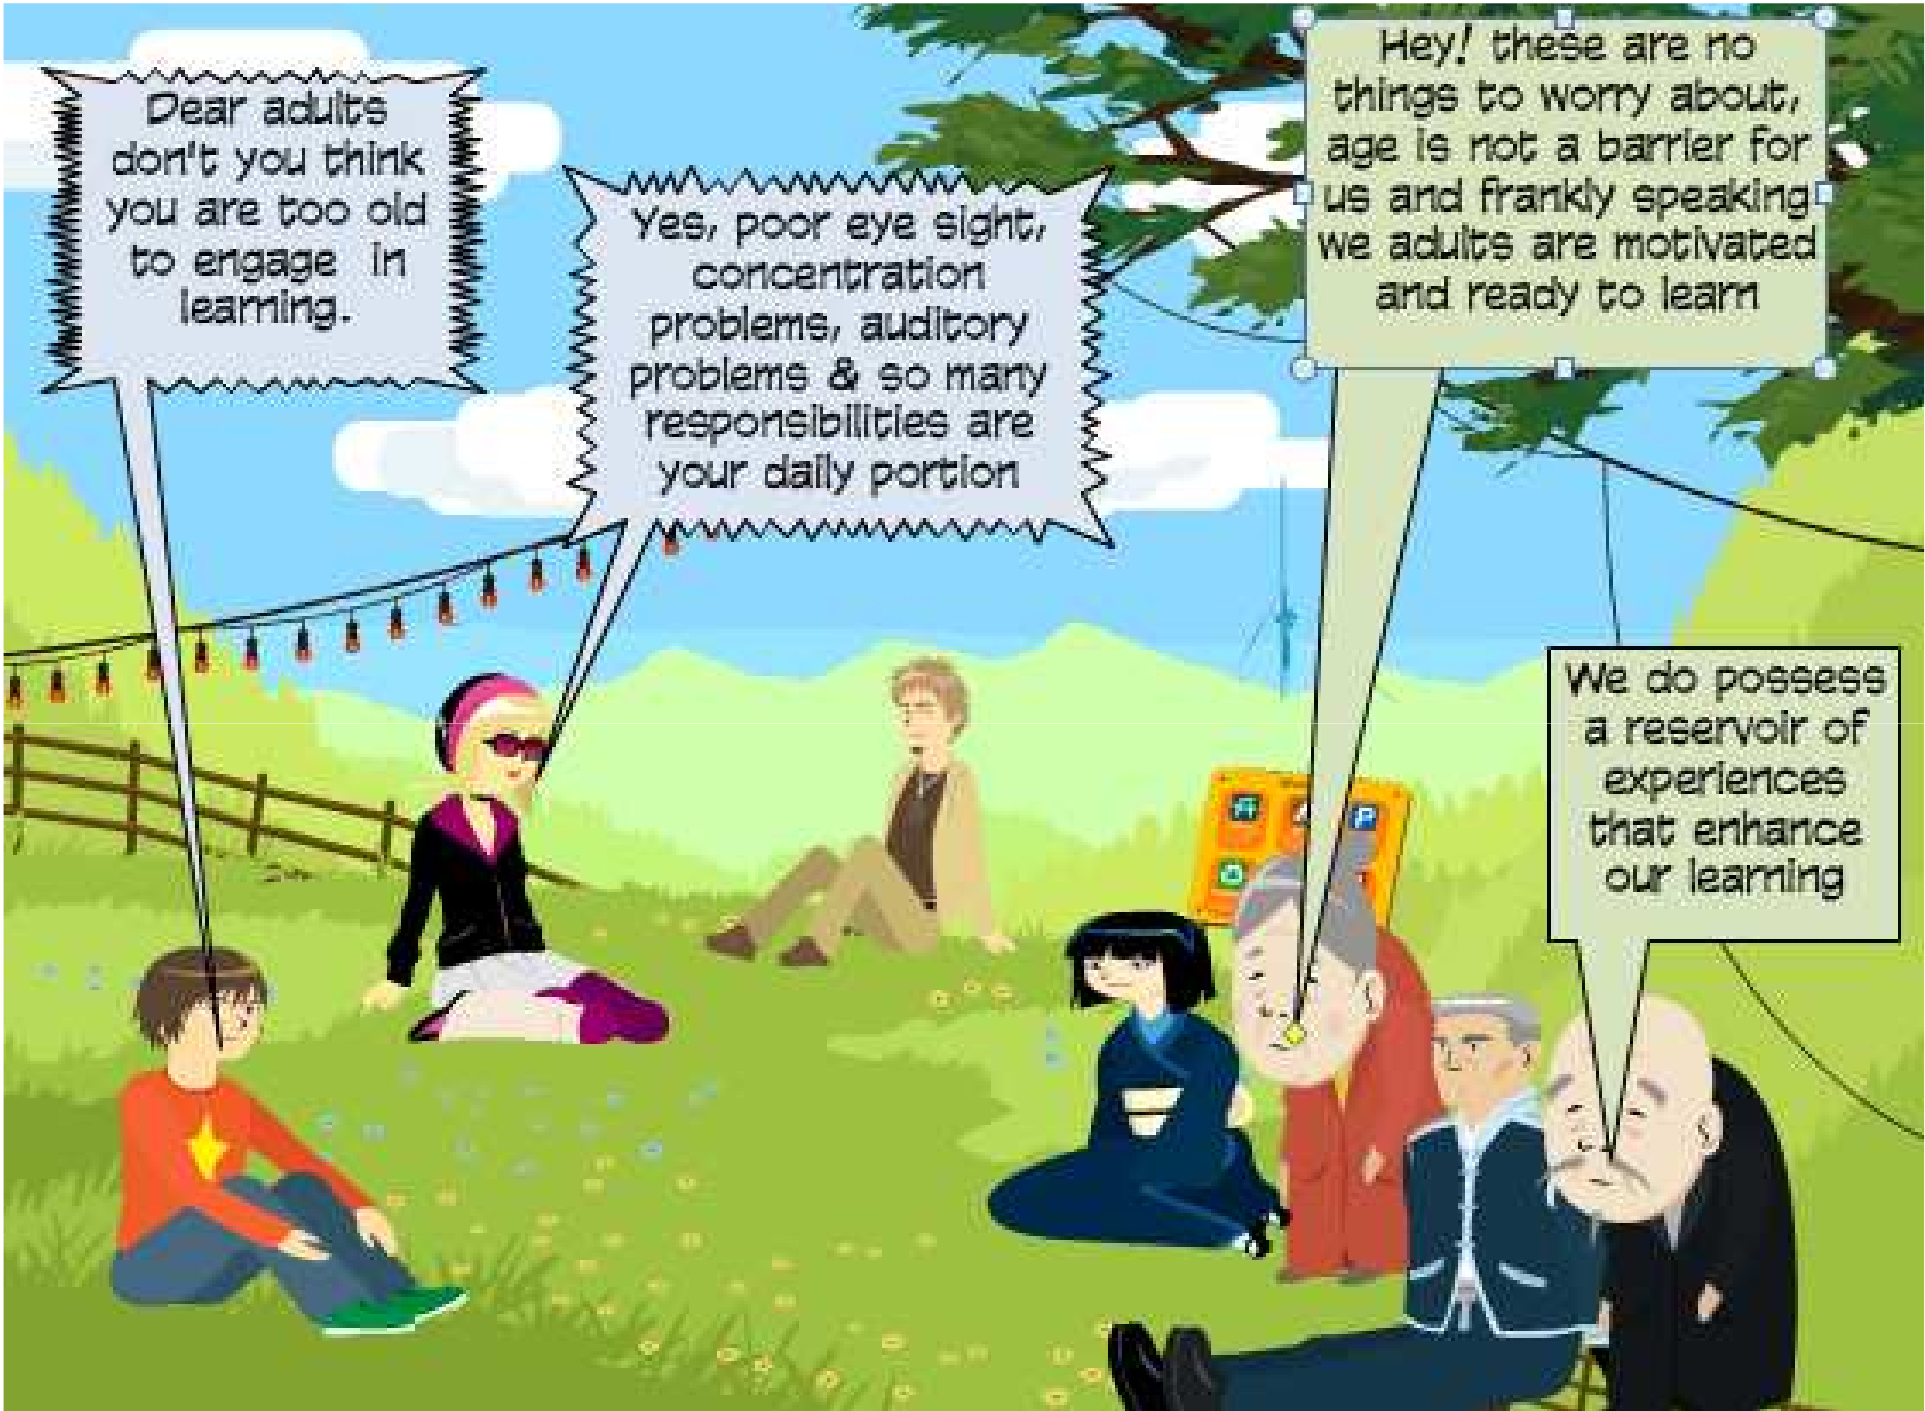

Heard about **Pedagogy** but what's **Andragogy**?

Never heard this word before not even **Knowles**

Knowles elaborates a theory about adult learning known as **Andragogy**

Andragogy is simply methods and techniques to teach adults

Pedagogy refers to child-instruction

Dear adults
don't you think
you are too old
to engage in
learning.

Yes, poor eye sight,
concentration
problems, auditory
problems & so many
responsibilities are
your daily portion

Hey! these are no
things to worry about,
age is not a barrier for
us and frankly speaking
we adults are motivated
and ready to learn

We do possess
a reservoir of
experiences
that enhance
our learning

So adult learners
are motivated,
ready to learn
and experienced

Not at all
My role is that
of a facilitator

We are fully engaged
learners that need to
know what & how to
learn and the benefits
derived out of it.

We are self-directed,
responsible who plan
and evaluate what we
learn

We appreciate being
respected and enjoy
to collaborate

We are more
problem-centered
rather than
content-centered

But is that all?

Hey guys, Eric & I have met an interesting group of adult learners who have really impressed us.
Rs1000 for the one who can tell me the differences between Pedagogy and Andragogy?
